CONSTRUCTION NOTICE

F. W. Shawl & Sons, Inc. will be completing a water main upgrade project for New Jersey American Water on or around the street in front of your residence.

Work is scheduled to begin on or about **8/21/17** between the hours of **7am to 5:30pm**, lasting approximately **two weeks**.

A portion of the roadway will be closed in accordance with the approved **Linwood** Police Department traffic control plan. Access will be maintained for residents and businesses at all times, however residents may not be able to park in the front of their homes when construction is in this block. The road will be temporarily restored on a daily basis so that regular vehicle traffic may pass. Any permanent asphalt, concrete or grass restoration will be completed once the proper trench settlement times are met per local ordinances.

Water service will be maintained during the construction of the new pipeline. Once the new pipeline is in service a utility crew will be scheduled to work on each customers service lateral. Service will need to be interrupted when connecting your service to the new pipeline. Our crew will notify you when this is planned. After any interruption of service, run your cold water faucet nearest to where the line enters your home to clear any discolored water caused by loose sediment or air for at least 5 minutes. If possible, flushing from an outside hose bib or utility sink is preferred.

Do not hesitate to communicate with our onsite personnel if you have any inconveniences during construction. If you need immediate attention, please call the New Jersey American Water twenty-four hour Customer Service Department at 1-800-272-1325 or visit www.newjerseyamwater.com.

Thank you for your patience and understanding while we complete this project.

Sincerely,

F. W. Shawl & Sons, Inc.
